

CWMP BOF Minutes

February 24, 2012

Meeting was called to order at approximately 10:00am EST February 24, 2012.

Attendees

Laxman Bhah – Celstream
Nancy Chen – Oki Data
Ira McDonald – Samsung/High North
Ranga Raji - Thinxtream
Anil Thakkar – Thinxtream

1. Status:

- **Translation of PWG Semantic Model to CWMP Data Model**
 - Laxman has sent the updated documentation and presentation slides.
 - Phase 1 of the translation work is complete
 - Phase 2 considerations:
 - Thinxtream/Celstream to demonstrate the working CWMP proxy capabilities, implementing TR-069 stack and IPP to obtain some elements of PWG SM from printers/MFPs.
 - To demonstrate the CWMP proxy in April Face-to-Face meeting?
 - Thinxtream/Celstream will discuss internally for logistic support.
 - Possible to do a live demo with 2 printers in meeting room?
 - By default, Thinxtream/Celstream will prepare to demonstrate everything remotely.
 - Ideally to demonstrate with both local printers and remote printers.
 - Action Items:
 - Ira to send Thinxtream/Celstream the mapping of IPP to key elements of Semantic Model for the demo.
 - Ira to discuss with Mike Sweet on printers and network setup in the room for the demo at April meeting.

2. Next Steps and Action Items:

- 1) Action Items:
 - Ira to send Thinxtream/Celstream a list of mappings of IPP to key elements of Semantic Model for the demo.
 - Ira to discuss with Mike on printers and network setup in the room for the demo at April meeting.
 - Thinxtream/Celstream to prepare a preliminary demo in March.
- 2) Next Teleconference: tentatively March 9, Friday, 10am EST.
