**6. Review Results of the Face-to-Face Meeting**

Ron suggested that the future teleconferences should be allocated to the two teams for use in attribute mappings, perhaps splitting the hour into two half-hour sessions. The team members are:

<u>Microsoft Team</u>	<u>NEA Team</u>
Joe Murdock	Shah Batti
Peter Cybuck	Brian Smithson
Nancy Chen	Ron Bergman

For the next teleconference, the Microsoft team will take the first half-hour, and the NEA team will use the second. Everyone is encouraged to participate in both sessions.

[At the face-to-face meeting, it was determined that the available Cisco documents are not as readily useful for this exercise.]

Joe indicated that he took the finalized attribute list generated at the face-to-face meeting and placed it into a spreadsheet. He will distribute it for use by the group.

ACTION: Joe Murdock will distribute an attribute list spreadsheet to be used as a template for future mapping efforts.

**7. Next Teleconference**

May 8, 1:00pm EDT.
