PWG WIMS CIM Alignment
Face-to-Face Meeting Minutes
Montreal – September 27, 2007

Attendees

Harry Lewis	InfoPrint Solutions	harryl@us.ibm.com
Lee Farrell	Canon Inc.	lee.farrell@cda.canon.com
Jerry Thrasher	Lexmark International Inc.	thrasher@lexmark.com
Dave Whitehead	Lexmark International Inc.	david@lexmark.com
Ole Skov	MPI-Tech	ole.skov@mpitech.com
Ron Bergman	Ricoh Co.	ron.bergman@ricoh-usa.com
Pete Zheler	Xerox	peter.zehler@xeroxlabs.com
Nancy Chen	Oki Data	nchen@okidata.com
Glen Petrie	Epson	Glen.petrie@eitc.epson.com
Ira MacDonald	High North Inc.	imcdonald@sharplabs.com
Bill Wagner	TIC	wamwagner@comcast.net
Paul Danbold	Apple	danbold@apple.com
Grant Gilmour	366 Software	grant@366software.com
David Too	Intermate	DT@intermate.com
Shah Bhatti	Samsung	Shah.bhatti@samsung.com
Rick Landau (telephone)	Dell	Richard_Landau@Dell.com

General

- ➢ Meeting was convened at approximately 14:40 EDT on 27 September, immediately after the PWG Plenary
- ➢ The Agenda for the Meeting was discussed
- ➢ It was noted that the call there were no objections to the Revised Charter. The revised charter now goes to the steering committee for formal approval.
- ➢ Bill gave an update of the Current Projects:
  - ▪ Imaging State and Counter MIB
    - • Draft is posted
    - • Prototype at Samsung
    - • Schedule: Targeted to complete by Dec. 07
  - ▪ The Counter Spec (PWG Standardized Imaging System Counters)
    - • Approved in April as PWG Candidate Standard 5106.1-2007
    - • Basis for Counter Schema and Imaging State and Counter MIB
  - ▪ Update of DMTF/CIM Printing MOFs
    - • Continuing Phase 2 and 3
    - • Schedule: Dec 2007 through April 2008
    - • Next activity: Phase 4 CIM Classes for Imaging Services

Counter Schema

- ➢ After a Break, Pete gave a presentation on the updated Counter Schema.
  - ▪ Counter Schema (Counter.xsd) available at MFD wiki, along with other schema
    - • http://pwg-wiki.wikispaces.com/MFD

- Counters are available at a fine to coarse granularity.
- Counters are backward compatible to types and patterns.

Imaging System State and Counter MIB

- Ira went over the history and contents of the Imaging System State and Counter MIB Spec (Draft)
- Shah indicated that Samsung has been prototyping the Imaging System State and Counter MIB
  - Shah indicated he expected prototyping to be completed by December, at which time the results would be posted.
  - Questions for Shah, to be addressed:
    - Were there issues with implementation?
    - Was there any data manipulation (the gateway should not have to manipulate)?
    - Can the same data be made available through a different service (WS, for example) without duplication?

CIM Printing Update

- Rick went over CIM update activities. Current state is posted on WIKI site
  - http://pwg-wiki.wikispaces.com/WIMS-CIM
  - Acceptance of Change Requests (CRs)is be much better and the process seems to be going much faster

Understanding Web Services: Why should PWG care?

- Rick went over Understanding Web Services: Why should PWG care?
  - ftp://ftp.pwg.org/pub/pwg/general/presentations/WebServicesWhyDoICare_for PWG_01.ppt
  - Deals with SNMP (monitoring) v. WS (management)

Action Items

- Shah to have System State and Counter MIB prototyping report by December F2F
- Rick and Ira to continue with CIM CR submissions
- Effort on CIM Best Practices document to proceed
- Next WIMS/CIM conference call at 12 Noon ET on October 11.

Minutes taken by Shah Bhatti, Samsung
