- Specific action Items in the 19 January were all completed
- The new working group charter has been approved and is at <ftp://ftp.pwg.org/pub/pwg/wims/charter/ch-wims-charter30-20090202.pdf>
- PWG/WIMS and PWG/MIB Web and WIMS Wiki pages have been updated. WIMS Web page links to th wlast minues have been refreshed:
 - Latest f2f minutes
 - Latest phone conference minutes

3 February Face-to-Face Meeting slides

- There were limited comments on the BoF Slides
 - Ira observed that Power management provisions are built into the Linux kernel. He will attempt to get some link describing those provisions
 - Ira noted the usefulness of the CIM/ACPI table on page 12 of http://www.dmtf.org/standards/published_documents/DSP1027_1.0.0.pdf
- Some additions and corrections to and elaborations on the WIMS Meeting and Plenary slides were made.
 - CIM network printer profile added to Futures discussion
 - Mention of release of Proxy code was dropped

4 Project Status Update

- Prototype CIM Proxy Printer Provider (Rick Landau)
 - Problems with the instantiation of associations appear to be resolved.
 - Still looking to completion by first quarter 2009.
 - Magnitude of code appears to be 5000-6000 lines of Python code, 1000 or so lines of Perl
- Ira may have CIM Print Service Schema draft by next week.

5 Next Steps / Action Items

- Next Meeting
 - The Next WIMS conference call will be during the face-to-face on Monday 16 February at 1:00PM EST.
