

PWG WIMS CIM Alignment

Conference Call Minutes

October 25, 2007

Meeting was called to order at approximately 12 p.m. EDT October 25, 2007 by Bill Wagner.

Attendees

Ira McDonald	High North
Rick Landau	Dell
Craig Whittle	Sharp
Harry Lewis	IBM-Ricoh
Dave Whitehead	Lexmark
Bill Wagner	TIC
Pete Zehler	Xerox

General Discussion

- Minutes from the October 11th teleconference (see ftp://ftp.pwg.org/pub/pwg/wims/minutes/cim-wims_071011.pdf) were approved. Dave will be added to the list of attendees.
- Ira expressed concern with the g-mail calendar. Access can take time if you have a Google account. We should consider alternatives to g-mail; perhaps integrating a calendar as part of the PWG Web site.
- Action items from last meeting
 - Rick to send current message registry (DMTF – registry of message to come from various classes). Done.
- Rick reviewed progress of CRs, 7 remaining (see wiki page <http://pwg-wiki.wikispaces.com/DMTF+CIM+Core+Schema+Change+Requests>).
 - 5 are modifications to existing classes are needed.
 - 2 are remaining (Interlocks is being balloted)
 - Print alert record (passed 11 to 0). Comments: an extension to alerts was suggested. Although the idea was good, it is too late to

retrofit the change to work already done. The SNMP mapping does not require this new capability—perhaps in the future.

- Print console light: console light description localization can be out of sync with other localized strings. Consensus: remove class.
- Consensus: console display buffer text and console natural language will be included.
- Ira / Rick suggested the work to model imaging counters begin soon.

Next Steps / Open Actions:

- Next teleconference is scheduled for November 8, 2007.
