PWG WIMS _CIM Alignment_
Conference Call Minutes
October 13, 2008

Meeting was called to order at approximately 11 am EST, October 13, 2008.

Attendees

Bill Wagner	Konica-Minolta
Ira McDonald	High North
Craig Whittle	Sharp

General Discussion

❖ Minutes from the previous teleconference were accepted (see
  ftp://ftp.pwg.org/pub/pwg/wims/minutes/cim-wims_080929.pdf)
  were accepted.

❖ Concern about start time for the WIMS face-to-face meeting next week. After
  introductions and reviewing the meeting minutes / agenda, the meeting may
  not start till 9 am.

❖ Agenda topics for the face-to-face

  ➢ Mapping of the IPPv2 print/job required attributes that were agreed to in
    last week's IPPv2 teleconference. These can be directly applied to the
    WIMS print service.

    ▪ Ira is starting the MOF definitions for the WIMS print service. Some of
      this work will need to be hand translated (unless we keep it as type
      "keyword").

  ➢ Rick will update the working group on the proxy.

  ➢ Discussion of joint activities with MFD working group (scan device?
    Scanner MIB?). What can be done in a proxy or prototype to further the
    standard?

  ➢ Should the WIMS-CIM take on the MIB charter? Perhaps the working
    group should be re-chartered to include device / service management

❖ Bill suggested posting the algorithms file to the e-mail list. Ira will "zip" the file
  and post it to the reflector with an easy to understand name.

Next Steps / Open Actions:

- Next week's meeting is the face-to-face meeting in Lexington
